BY SIGNING BELOW, CUSTOMER HEREBY AGREES TO AND SHALL BE SUBJECT TO THE FOLLOWING TERMS AND CONDITIONS:

Customer may use the Equipment for trial and evaluation at no cost for a period of 30 days from *EITHER* the date the appliance arrives and is installed at the customer's location, OR 7 days after the appliance arrives at the customer's location, whichever date is sooner.

If the Equipment is returned to Company within 7 days of the completion of the Trial Period, Customer will owe nothing for the Product Trial. If the Equipment is NOT returned to Company within 7 days of completion of the Trial Period, Customer will be invoiced for the first month(s) of service, and agrees to pay the charges due based on Customer's data consumption \$500 for the Appliance including 1 Terabyte, and \$200 for each additional Terabyte) OR a minimum of \$500 (Appliance including 1 Terabyte), whichever is greater.

If the Equipment is NOT returned to Company within 15 days of completion of the Trial Period, Customer will be invoiced for the months of active service, and agrees to pay the charges due based on Customer's raw data consumption (\$500 for the Appliance including 1 Terabyte, and \$200 for each additional Terabyte) OR a minimum of \$500 (Appliance + 1 Terabyte), whichever is greater.

If the Equipment is NOT returned to Company within 15 days of completion of the Trial Period, Customer will automatically enter into a 12-month service term, and agrees to the terms of service found at www.trins.io/policies.

Equipment returned to Company must be in the same working and physical condition as it was at the time the Equipment was delivered by Company. To avoid the return being rejected, the following criteria must be met:

- a) Equipment must be returned in the original packaging, both inside and outside.
- b) All returns must be complete with all instructions, cables, warranty cards, etc., just as they were received.
- c) Equipment must be clean and without excessive scratches. If Equipment is not returned in satisfactory condition, Customer will be invoiced and agrees to pay the then current retail sales price of the Equipment.
