The Utah Department of Transportation, Division of Aeronautics ("Grantor") is pleased to notify Wendover Airport (ENV) ("Grantee"), located at 345 Airport Way, Wendover, UT 84083, that it was selected to receive a \$35,000 revitalization grant. The award cycle is from August 1, 2023 through December 1, 2023. The Division makes this grant subject to the following terms and conditions:

1. Grantee, or its fiscal agent, is a Utah public airport recognized by the Utah Division of Aeronautics, the Federal Aviation Authority, or another certificate-granting body.
2. Grantee will utilize the grant funds only for airport revitalization activities associated with the approved program proposal and following the budget plan submitted with that proposal.
3. Grantee will inform Grantor immediately of any change in its proposed budget or spending plan and request approval for necessary alterations.
4. This is an airport revitalization grant. It is not earmarked for any other project or for transmittal to any other entity or person, even if Grantee's proposal or other correspondence expresses expenditure intentions. Rather, Grantee accepts and will discharge complete control of the grant and its disposition and responsibility for complying with this agreement's terms and conditions.
5. Grantee will submit a six-month report to Grantor by May 1, 2023, and a final report by November 1, 2023, detailing any work that Grantee has completed using these grant funds. The report must include information on how the Grantee used the grant funds.
6. Grantor awards the grants in a single allocation. The Grantor will mail the award to the Grantee's designated financial representative.

Grantee's deposit, negotiation, or endorsement of the award check will constitute its agreement to the above terms and condition. However, please have the enclosed copy of this letter reviewed and signed where indicated by an authorized officer of Grantee and then returned to us at your earliest convenience so that we may have a copy for our files.

Sincerely,
